RESPIREX™

## Citrikleen HD

Citrikleen is a high quality hydrocarbon based **solvent emulsion cleaner and degreaser**, which is completely biodegradable after soil release.

Dilute Citrikleen is recommended for the removal of heavy grease, oil and other petroleum type oil deposits from Respirex protective clothing. It contains only biodegradable ingredients and is designed for applications where the use of highly flammable and toxic solvents or caustic alkalis are undesirable or prohibited.

### Key Features

- Quick-splitting solvent emulsion
- Fresh, fragrant aroma
- Biodegradable after soil release
- Natural hydrocarbon based solvent

### Product Documentation

For manufacturer safety data sheet please visit the Citrikleen product page in the Other Items section of the respirex website. Visit [respirex.com](http://respirex.com) or scan the QR code for more details.

## Zipper Wax

Zipper Wax stick **zip lubricant** is ideal for protecting all kinds of zips from getting stuck. Just glide it along the metal or plastic zip on your PPE. It's silicone-free lubricant works in all temperatures and weather conditions.

### Key Features

- Paraffin-based, silicone free zip lubricant in solid stick form
- Prevents zip jamming and costly zip repairs
- Works in all temperatures and conditions
- Nontoxic, nonstaining formula
- Contains no beeswax
- Prolongs zip life

### Product Documentation

For additional information please visit the Zipper Wax product page in the Other Items section of the respirex website. Visit [respirex.com](http://respirex.com) or scan the QR code for more details.

## Fog Off

An excellent **cleanser with anti-fogging and anti-misting properties** designed for Respirex suit visors. Provided in a convenient spray bottle, Fog Off is nontoxic, noncorrosive, non-irritant, ozone friendly, and entirely safe to use on any visual surface. Simply spray onto the surface and gently buff with a lint free cloth.

### Key Features

- Excellent cleanser
- Anti-static
- Non-smearing
- Biodegradable
- Pleasant mild odour
- Leaves no marks
- Anti-microbial activity
- No chemical reaction with rubbers, plastics or glass
- Near neutral pH, and contains no organic solvents, thus no crazing, erosion or impairment of visor surface clarity.
- Anti-fogging properties persist for a considerable time unless the product actively dissolved, hot washed or vigorously rubbed off

### Product Documentation

For manufacturer safety data sheet please visit the Fog Off product page in the Other Items section of the respirex website. Visit [respirex.com](http://respirex.com) or scan the QR code for more details.

# RESPIREX™

Living + Breathing Personal Protection

## Odor-Clear

Designed to be applied internally to chemical protective clothing to avoid micro fungal/bacterial infections and odour problems. Odor-Clear chemically eliminates organic odour without the use of masking fragrance and contains four linked detergents which provide an effective light cleaning action.

Odor-Clear is diluted 1:10 and applied by cloth or spray.

### Key Features

- Effective odour neutralizer
- Biodegradable
- Non-flammable
- Environmentally safe

### Product Documentation

For manufacturer safety data sheet please visit the Odor Clear product page in the Other Items section of the respirex website. Visit [respirex.com](http://respirex.com) or scan the QR code for more details.
